- Midjourney, Adobe Firefly, DALL-E
- Gemini (Nano Banana Pro, Flash)
- Claude, Claude Design, ChatGPT
- Runway & Sora (AI video)
- AI-assisted creative workflows
- Content automation & prompt design

PROFESSIONAL SUMMARY

Senior Graphic Designer with 24 years of experience, 21 of them in the UAE, specialising in brand identity, campaign design and large-scale event branding for banking, hospitality, real estate and exhibition clients. I translate complex briefs into visually compelling assets across print, digital, environmental and multimedia channels, and integrate generative AI and automation to shorten production cycles without compromising craft. Comfortable in fast-paced, collaborative environments alongside marketing, content and business development teams.

EXPERIENCE

Senior Graphic Designer | AI Workflow Specialist
Eleven777 Advertising LLC, Dubai | 2011 – Present

BRAND STRATEGY & VISUAL IDENTITY

- > Develop, maintain and enforce brand identity systems and visual guidelines across marketing channels, collateral and event assets, keeping application consistent across print, digital and environmental.
- > Build and manage brand asset libraries and master templates so campaign teams can produce on-brand material quickly and without drift.

CAMPAIGN & EVENT BRANDING

- > Deliver complete branding packages for major summits, exhibitions and trade shows — exhibition graphics, wayfinding, large-format environmental branding and on-site collateral.
- > Led artwork for Emaar Expo 2020, the IPL UAE campaign, and the Address Boulevard and Address Downtown hotel opening campaigns.

DIGITAL, PRINT & MULTIMEDIA

- > Create high-impact graphics for social campaigns, ad banners, websites, email templates, sales presentations and pitch decks, plus brochures, posters and editorial print media.
- > Produce motion graphics, short-form video and animated banners for social and digital advertising using After Effects and Premiere Pro.
- > Prepare print-ready artwork end to end — grid systems, typography, colour management and pre-press — backed by a pre-press management background.

AI & DESIGN INNOVATION

- > Integrate generative AI into concept development and campaign ideation, and design and build the internal AI tools that automate pre-press checks, image production and content generation across the studio.

ADDITIONAL SKILLS

MOTION & MULTIMEDIA

- Motion graphics & animation
- Social reels & short ad clips
- Video editing & dynamic banners

DIGITAL & WEB

- UI/UX fundamentals & wireframing
- Responsive web layouts
- HTML5 & CSS
- WordPress CMS
- Google Web Designer

PRESENTATION & DATA

- PowerPoint master templates
- Pitch decks & sales collateral
- Infographics & data visualisation
- Keynote, Word, Excel

St. Cyril's College, Adoor,
Pathanamthitta, Kerala

PERSONAL PROFILE

Date of Birth

23 / 04 / 1977

Nationality

India

Languages Known

English, Hindi & Malayalam

SELECTED WORK

Emaar Expo 2020

Campaign and event design collateral across print and digital touchpoints.

LEAP / DeepFest — Hall 5 Perimeter Branding

Full environmental branding programme: site survey through to print-ready artwork for 22 fence segments covering approximately 555 metres.

IPL UAE Campaign

Tournament campaign artwork adapted across print, digital and large-format applications.

Address Boulevard & Address Downtown, Dubai

Hotel opening campaigns — identity application, collateral and launch assets.

Emaar Ramadan Campaign

Seasonal brand campaign across retail, hospitality and digital channels.

ADDITIONAL ADVANTAGE

A suite of 13 internal AI web applications I designed and built for the Eleven777 studio, now in daily use by the design, production and account teams.

- > **Design & pre-press QC** — VectorGuard AI (colour space, raster detection, print readiness), Design Inspector (opens PDF, AI and EPS files and verifies colour mode and vector quality), Image Check Tool (resolution and output readiness).
- > **Production automation** — BG Remover AI (batch background removal with AI upscaling), Mockup Creator (automatic realistic mockups), File Compressor and File Share.
- > **Campaign & content** — Idea Generation Hub (idea to strategy), Social Content + Visual Editor, EDM Compliance Guard (layout, spacing and brand compliance), ENBD EDM Generator (template-driven EDM builder).
- > **Business systems** — E777 CRM (RFPs, leads, deals, projects and analytics) and Estimator Tool for rapid project estimating.
